This is to confirm that the LDPE used in the production of the sterile sampling bags, conforms to the applicable regulations to the Food and Drug Administration [21 CFR 177.1520 (c)3.1a, (c)3.2a and 178.2010] for use in contact with nonalcoholic food, including use in articles used for packing and holding food during cooking.

Furthermore, we certify the following for our LDPE material:

- That it is free of any rubber or latex additives.
- That it is formulated without any tallow-based derivatives from bovine material and therefore would comply with both the USDA / APHIS regulations and ECD's governing exposures to transmissible spongiform encephalopathy (TSE) / bovine spongiform encephalopathy (BSE).
- That it contains no antimicrobial, fungicidal, pesticidal or similar additives.
- That it complies with CONEG and RoHS regulations specifying that cadmium, hexavalent chromium, lead and mercury are not intentionally introduced into the material's formulation.
- That it contains none of the following:
