

## The widest range of test sieves available

### Made to every National and International Standard

Endecotts laboratory test sieves and sample analysis equipment are used worldwide. Be it industrial sieve, laboratory test sieves, heavy engineering, mining or pharmaceuticals, Endecotts have the widest range of sieves available and are renowned for quality, durability and precision. Endecotts test sieves meet every national and international standard including ISO and ASTM.

#### Any sieve you need

Endecotts manufacture a wide range of sieve types, standard and special including:

- Woven wire mesh sieves
  - Perforated plate sieves
  - Microplate sieves
  - Full and half height sieves
  - Air jet sieves
  - Extra depth sieves
  - Wet washing sieves
- and a lot more

If you cannot find the desired sieve in our product range, let us know and we will look to accommodate your specific requests!

Endecotts test sieves can be supplied to a variety of different inspection levels depending on the information requirements specified.

#### Certified Test Sieves

All test sieves manufactured to a National or International Specification are supplied with a Certificate of Compliance and individually serial numbered to provide full traceability.

#### Inspected Test Sieves

Test sieves inspected in accordance with the procedures listed in clause 5.2 and table 4 of ISO 3310-1 and BS 410-1. Each sieve is supplied with an Inspection Certificate stating separately the values for the average aperture in both the warp and weft direction of the wire-cloth.

#### Calibrated Test Sieves

Test sieves inspected and calibrated in accordance with procedures listed in clause 5.2 and table 4 of ISO 3310-1 and BS 410-1. Each sieve is supplied with a calibration certificate recording the number of aperture and wire diameters measured, the average aperture size and standard deviation separately for the warp and weft direction. The type of weave will also be stated.

#### Mid Point Sieves

Test sieves with the sieving medium specification tolerances reduced by 30%. Each sieve is supplied with a Calibration Certificate giving the range of tolerances and measurements taken.

#### Re-Inspection Service

Used sieves are examined and inspected in accordance with the appropriate specification. Complying sieves are issued with a Compliance, Inspection or Calibration Certificate as requested by the customer.
