

Quality assurance starts with the inspection of incoming goods! An all-layer sample of bulk goods is no longer a problem with Power Powder, the sampler for powders and granules.

The Power Powder is the practically proven professional solution for mobile sampling of powders and granules. Different lances and augers can be attached to the robust drive unit and swapped without any problems. This modular design makes it a versatile instrument for sampling powders and granules from drums, barrels, bags or sacks.

Safe and reliable sampling is made even easier with useful accessories such as basket-enclosed bottles, sample bags and close-it control seals. Available with lance for horizontal use, such as sampling from sacks, with lance for vertical use, for sampling from open containers such as barrels, drums or bags.

ONLINE PRICING

Power Powder | mobile powder sampling

- ▶ Many uses
- ▶ Stainless steel AISI 316L (1.4404)/AISI 301 (1.4310)
- ▶ Incl. motor, two rechargeable batteries, fast charger, lance, spiral screw, bags, clip for holding the bag and cleaning brush
- ▶ Additional spiral screws available as accessory

Use

1. The lance is inserted into the sack/container with the spiral screw rotating.
2. The powder or granules are immediately transported through the lance and filled directly into a sample bag or bottle at the lance outlet.
